ISAAC SHELBY CEMETERY AT TRAVELLER'S REST

In May 1938, complete restoration of the Shelby burial ground was undertaken by Judge and Mrs. Samuel M. Wilson of Lexington, Kentucky, Miss Susanna Preston Shelby Grigsby and Colonel Evan Shelby. During this restoration, the stone wall surrounding the burial ground and the individual grave markers were restored by the Lexington Granite Company. The Traveller's Rest slab, dated 1820, was removed from the original wall and reset in the present wall.

In September, 1991, the Kentucky Department of Parks completed major restoration of the Isaac Shelby Cemetery. The restoration included stabilization, resetting, cleaning and conservation treatments of the existing gravemarkers and identification of the unmarked gravesites. The wall surrounding the cemetery was also restored by cleaning, recapping and tuck-pointing of the stone.
