See if you can find your way through the park using only a map and a GPS device. For you die hard geocachers, this is a new twist on an old favorite. If you are new to geocaching, this is a great experience to test your skills.

You will hunt for nine caches around the park, each with a spooky tale!

Each cache will give clues to the “final destination”.

This event will be touchless, including the locations-cache points. You will need your own GPS device!

Smart Phones can download a GPS app. Just make sure that you can input coordinates on those devices and that they are fully charged before starting your night off.

Oct. 24th will be the scariest night filled with scare! Oct. 25th will have no jump scares, scariest part will be walking in the dark!

Costs $6/participant

What to Bring:
Light Source, GPS, Water, Mask, Nerves of Steel!

Please dress for the weather.
All CDC Guidelines will be followed
Please wear a mask while inside the building and stay socially distant from other people or groups while on the park
