Specialty Impressions

Specialty impressions are defined as any impression that is not in the regularly listed military impressions or basic civilian impression. Medical, signal corps, pioneers, etc. are considered specialty impressions.

Please refer to the basic impression guidelines for both the Confederate and Union armies as well as the civilian impression guidelines. These guidelines outline the basic event expectations and the uniform and accouterment guidelines should be followed.

Specialty impressions are not discouraged, but must be approved by park staff before the event. Please contact at Bryan.Bush@ky.gov regarding any specialty impression.
